Road Closure Slated for Segment of Audubon Drive

Thibodaux, LA - LA Contracting has advised City officials they will be working on the damaged portion of roadway around the Nicholls soccer field across from John L. Guidry Stadium on Audubon Drive today, March 1.

This repair project, which is expected to encompass all of the day, will require the diversion of traffic around the football stadium at Madewood Drive before bringing motorists back on to Audubon via Ardoyne Drive.

LA Contracting and the City's Department of Public Work appreciate your patience while these repairs are being done.
