

Office of Mayor Charles Caillouet  
City of Thibodaux

For Immediate Release: March 3, 2010

## **City of Thibodaux Sewage Lift Pumps Being Clogged Due to Flushing of Inappropriate Items**

**Thibodaux, LA** – The City’s Public Works Department is experiencing problems with materials clogging the sewage lift pumps. The flushed materials resemble absorbent pads, having a plastic backing or lining, such as bedding pads or puppy training pads (*See Illustrations below*).

The lift station on Menard Street, which serves the area bound by LA Hwy 1, Canal Boulevard, East 7<sup>th</sup> Street, and Bayou Lane has been an area of concern. If you live or operate a business within this area, we ask for your cooperation. To avoid service interruption, please dispose lined absorbent pad products in roadside trash collection.
