*In current economic climate, where people are watching their spending, discount card can offer average savings of 20 percent off the retail price of prescription drugs*

**Thibodaux, LA** – Mayor Caillouet announced a program launched to help provide residents with some relief from the high cost of prescription drugs. The city is making free prescription discount cards available to city residents through a program sponsored by the National League of Cities (NLC). The discount cards offer city residents an average savings of 20 percent off the retail price of commonly prescribed medications.

The discount cards may be used by all residents of Thibodaux and has no restrictions based on the resident's age, income level, or existing health coverage. The discount card benefits not only those without insurance, but can also be used by underinsured residents to obtain prescriptions that are excluded from health benefit plans. The NLC card can be used when purchasing prescription drugs at pharmacies around the city, as well as at more than 60,000 participating retail pharmacies across the country.

“In the current economic climate, where many people are watching what they spend, Thibodaux is happy to partner with the National League of Cities to make this prescription discount card available for our residents,” said Mayor Charles Caillouet. “Whether or not an individual has prescription coverage, this program can make it easier for our residents to afford the medications they need to deal with a short-term illness or stay healthy by managing a chronic condition.”

Cards can be printed from the Internet at [www.caremark.com/nlc](http://www.caremark.com/nlc) and are available at: Thibodaux Police Station (1309 Canal Blvd.), Thibodaux Library (305 W. 5<sup>th</sup> Street), CVS Pharmacy (201 N.
