## HEALTH AND WELLNESS

### Making Wise and Nutritious Choices at the Grocery Store

There are probably more than 15,000 food choices at your local supermarket - each one with a label that is bright, inviting, and says "buy me." What choices should you make? Which foods are good for you, and which aren't?

If you want to make healthy choices, read labels carefully.

- Watch for saturated fat and trans fat.
  - Watch for excess sugars.
  - Watch for excess calories.

Choose foods with few or no additives or artificial sweeteners whenever possible. Vitamin and mineral additives can be beneficial, however. Organically grown food is always best.

In an effort to assist those who have made Thibodaux what it is today, the City of Thibodaux has established the Help Your Neighbor Customer Assistance Program. The program will assist seniors in Thibodaux and disabled residents who cannot afford to pay their city utility bills. With the help of generous individuals, we can help our neighbors and make a difference in the lives of those in need in our community.
