East Thibodaux Waterline Distribution Project

Start Date: June 14, 2010!

The East Thibodaux Waterline Distribution Project is slated to begin on June 14, 2010. The project's scope consists of replacing approximately 63,000 linear feet (12 miles) of aged transmission and distribution mains from approximately Canal Boulevard to N. Acadia Road and from LA 1 to Gerald Peltier Drive. The 2" and 4" water lines are over 50 years old, have served their useful life, and are of inadequate size to meet current flow demands and maintain modern operating pressures.

"The benefit of the East Thibodaux Waterline Distribution Project will be the elimination of leaks and breaks throughout the system; thereby, reducing the risk of contamination and reducing the city's maintenance and repair costs."
 ~Mayor Charles Caillouet
